MINISTER SHOWN ON '71 CALENDAR

The Reverend Forrest S. Wagoner, of Richmond and one of his daughters, Jane, are pictured on the 1971 calendar issued by one of the Richmond stores affiliated with Southern States, Inc, Dan Coleman, of the Appomattox Southern States affiliate, Coleman & Sons, Inc., has requested 50 copies of the calendar to give to friends of the Wagoners. Mr. Wagoner is minister of Walmsley Blvd. United Methodist Church. Jane is a high school student and another daughter, Mary Agnes, is a junior at Madison College.

Mr. Wagoner is a former minister of Memorial United Methodist Church, Appomattox.

1971. You've changed. We've changed.

Change. That's what it's all about this year. And that's what we mean by putting you first.

These are uneasy times.

There are major concerns. About pollution. About safety. About the economy. About your hard-earned dollar. We know.

For the past 10 years Chevrolet research people have questioned thousands of people on every subject from rising taxes to the size of the glovebox in their cars.

We've found that price and maintenance costs, trade-in value and quality have become tremendously important.

Your car has to work. It has to last. And each new model must have more built-in value.

At Chevrolet, we understand.

You want meaningful change. And our aim is to give that to you, as you'll see in the 1971 Chevrolets.

Caprice. The biggest, most luxurious Chevrolet ever. A complete change.

Bigness in itself is nothing.

But if it allows you to lengthen the distance between the front and rear wheels (which we did), then you've got something.

You've got a smoother ride.

The idea in the 1971 Caprice was to give you the looks and comfort of a six- or seven-thousand-dollar car, without asking you to pay anywhere near that much for it. And above all, to build in as much dependability and security as possible.

So we changed the body structure for 1971, too. We made it stronger. And we made it quieter by putting a double layer of steel in the roof.

Caprice, as you can see below, is a lot of luxury at a Chevrolet price.

Vega. The littlest Chevy ever. It wasn't changed from anything.

Before building Vega, we read everything we could get our hands on about little cars. We talked to owners. We studied little cars up one side and down the other and, literally, tore them apart. We found out what made them tick, or why they didn't tick.

What ticked were gas economy and dependability. What didn't were underpowered engines, cramped quarters and getting blown around in the wind.

In our little Vega, everything ticks. It's not just another little car. You didn't want *that*. It's one little car that does everything well.
